

```
In [5]: ! pip install pyfiglet
import pyfiglet
import random
fonts = ['standard', 'banner3', 'digital', 'slant', 'smscript']
colors = ['red', 'green', 'yellow', 'blue', 'magenta', 'cyan']
selected_font = random.choice(fonts)
selected_color = random.choice(colors)
message = pyfiglet.figlet_format("Happy Mothers's Day!", font = selected_font)
print(f"\033[1;{colors.index(selected_color)+31}m{message}\033[0m")
```

Requirement already satisfied: pyfiglet in c:\users\dhivyabharathi\anaconda3\lib\site-packages (0.8.post1)
